

Why SPEED?

Self-Ligation that Works!

Performance

Unique to SPEED, a Nickel Titanium Spring Clip that won't deform and never tires. Precise control from Start to Finish

Efficiency

SPEED's Labial Window permits fast archwire changes. A Rhomboid Silhouette simplifies bracket positioning. Efficiency at your fingertips.

Versatility

SPEED's .016 Auxiliary Slot opens up a world of clinical possibilities. Sectionals. Segmental mechanics. Secondary archwires. Versatility at your fingertips.

Esthetics

Patients appreciate the esthetic appearance of SPEED, and its mini-wingless design is less prone to food trapping. Superior esthetics and oral hygiene for your patients.

SPEED - Self Ligation that Works!

The SPEED Appliance exceeds expectations. Exceptional performance, efficiency, versatility, and esthetics. Put SPEED to work in your practice today. Contact us and ask about the SPEED Introductory Kit.
