

## PRODUCT NEWS

### Intraoral Scanner

The CS 3600 intraoral scanner from Carestream Dental features an Intelligent Matching System that allows the user to fill in missing information for any area in the data set. With its high-speed, continuous scanning and 13mm range, the CS 3600 simplifies the scanning process and reduces the time it takes to acquire a scan, according to the manufacturer. Each unit comes with two rounded, interchangeable autoclavable tips.

For more information, contact Carestream Dental, 1765 The Exchange, Atlanta, GA 30339. (800) 944-6365; [www.carestreamdental.com](http://www.carestreamdental.com).

### Texting App

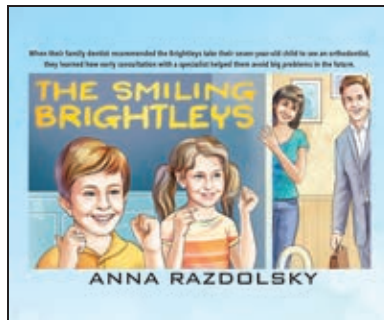

Dentistry's first HIPAA-compliant texting app makes patient communication quick, easy, and secure, according to the company. Available in the App Store and Google Play Store, the app includes functions for exchanging images and documents, group messaging, collaborative workflow, and cloud-based data archiving.

For more information, contact Awrel, 1244 Boylston St., Chestnut Hill, MA 02467. (855) 522-9735; [www.awrel.com](http://www.awrel.com).

### Children's Book

*The Smiling Brightleys* tells the story of a child who is referred to an orthodontist when his adult teeth start coming in. The family learns how early consultation with a specialist can help avoid bigger problems in the future. Presented in terms children can understand, the book provides a wealth of information on early orthodontic monitoring and treatment, according to the publisher.

For more information, contact Forever Smiles Publishing, 600 W. Lake Cook Road, Suite 150, Buffalo Grove, IL 60089. (847) 229-0989; [www.foreversmilespublishing.com](http://www.foreversmilespublishing.com).

### Bracket System

Ormco has introduced the Alias Lingual Bracket System, a passive self-ligating, square-slot preadjusted lingual appliance. The bracket's .018" vertical slot keeps the archwire properly engaged, permitting more precise treatment and greater rotation and torque control, according to the manufacturer. Gingivally offset positioning allows placement closer to the lingual tooth surface.

For additional information, contact Ormco Corporation, 1717 W. Collins, Orange, CA 92867. (800) 854-1741; [www.ormco.com](http://www.ormco.com).
