Curing Light

The Demi Plus LED Curing Light System fromOrmco features a lightweight, ergonomic design with multiple holding options. The exterior is made of a thermoplastic polyester resin that protects and extends the life of the unit, according to the manufacturer. Along with a three-year warranty, the system offers an advanced battery technology, three different time settings, and a light guide with a longer reach.

For more information, contactOrmco Corporation, 1717 W. Collins, Orange, CA 92867. (800) 854-1741; www.ormco.com.

Low Profile Brackets

3M Unitek's Victory Series Low Profile Brackets now come preloaded with APC Flash-Free Adhesive, allowing the orthodontist to move directly from bracket placement to curing without having to remove adhesive flash. Benefits for the patient, according to the company, include enamel protection and quicker and easier debonding.

For more information, contact 3M Unitek, 2724 S. Peck Road, Monrovia, CA 91016. (800) 423-4588; www.3Munitek.com.

Syringe Tips

The Mydent International Air/Water Three-Way Syringe Tip's inner metal-core water chamber seats into the syringe, eliminating water contamination in the air chamber. The unique quad core design ensures instant dry air, prevents cross-contamination, and delivers superior spray, according to the manufacturer. Available in clear, white, and blue, the tips come in counts of 250, with the blue version also available in packages of 1,500.

For more information, contact Mydent International, 80 Suffolk Court, Hauppauge, NY 11788. (800) 275-0020; www.defend.com.

Expansion Screws

The Perfect Orthodontic Performance (POP) Expansion Screws from Leone Orthodontics and Implantology are made of stainless steel and a biomedical technopolymer. The flexibility and flat shape of the self-centering rectangular guides allow a gradual release of the expansion force, according to the company; the appliance's adaptability ensures patient comfort following reactivation.
