

PRODUCT NEWS

Sealants and Primers

DenteShield sealants and primers inhibit the development of plaque and white-spot lesions by coating the tooth surfaces and actively combating bacteria with Seldox, a selenium-based organic compound, according to the manufacturer. DenteShield Orthodontic Primer may be applied before or after bracket bonding; the orthodontic primer and sealant work with DenteShield or other currently available light-cured adhesives.

For more information, contact SelenBio, Inc., 4009 Banister Lane, Suite 370, Austin, TX 78704. (833) 473-5369; www.selenbio.com.

Dry Vacuum

The compact and quiet Mojave LT features a motor-driven air/water separator and is 100% water-free, according to the manufacturer. The multicolor touch-screen display provides constant status information, and the system readily integrates with NEO Pulse software for efficient monitoring.

For more information, contact Air Techniques, 1295 Walt Whitman Road, Melville, NY 11747. (800) 247-8324; www.airtechniques.com.

Dental Wax Alternative

OrthoDots CLEAR, a transparent alternative to dental wax, promotes patient satisfaction by providing the benefits of wax with near invisibility, thus meeting esthetic as well as orthodontic needs, according to the company. The product combines medical-grade silicone with a moisture-activated adhesive to stick and stay effectively with any orthodontic appliance.

For more information, contact OrVance, 6477 Cherry Meadow Drive S.E., Suite 5, Caledonia, MI 49316. (888) 508-1290; www.olvance.com.

Autoclave Cleaner

Defend Autoclave Cleaner uses anionic and non-ionic surfactants to clean grease and scale build-up from steam autoclaves, according to Mydent. Only 4oz of the phosphate-free concentrate is needed to make 68oz of solution.

For more information, contact Mydent International, 80 Suffolk Court, Hauppauge, NY 11788. (800) 275-0020; www.defend.com.
