

PRODUCT NEWS

Online Training

Ormco has launched Ultima Journey, an online educational resource that offers advanced, on-demand training modules for clinicians who use the Damon Ultima system. According to the company, key experts provide guidance, tips, and techniques to help drive treatment success, while users can interact with other orthodontists in an online community. Staff proficiency training is also available.

For more information, contact Ormco, 1717 W. Collins Ave., Orange, CA 92867. (800) 854-1741; www.ormco.com.

3D Printing Updates

SprintRay is partnering with Braces On Demand to give clinicians the capability to print brackets in-office. This 3D-printing system enables the fabrication of a variety of fixed appliances in less than 30 minutes, according to the manufacturer. SprintRay has also added to its software offerings, including SprintRay Cloud Design for clear aligner treatment planning and RayWare Cloud for tracking the production of 3D-printed clear aligner cases.

For more information, contact SprintRay Inc., 2705 Media Center Drive, Suite 100A, Los Angeles, CA 90065. (800) 914-8004; www.sprinray.com.

Mobile Scanning Station

Planmeca Imprex is a sleek mobile unit for taking high-quality digital impressions, according to the company. An integrated PC comes preinstalled with the Romexis suite and ready for use with the Emerald S intraoral scanner. Scans captured on the station are stored to the Romexis database and are immediately available on any workstation on the same network, or they can be sent to an external partner directly from the station.

For more information, contact Planmeca USA, Inc., 100 N. Gary Ave., Suite A, Roselle, IL 60172. (630) 529-2300; www.planmecausa.com.

Fluoride Treatment

Curodont Repair Fluoride Plus is the first biomimetic system for noninvasive treatment of early caries through enamel remineralization, according to the manufacturer. Targeting initial carious lesions without injection or drilling, it enhances tooth longevity by promoting the growth of new hydroxyapatite crystals. This nonstaining, pain-free, and tasteless formula is suitable for patients of all ages; the application can be completed in as little as five minutes.

For more information, contact vVardis, Sihlbruggstrasse 109, 6340 Baar, Switzerland. +41 56 560 20 44; www.professional.vvardis.com.
