

PRODUCT NEWS

Topical Cream

MI Paste Plus, a water-based topical tooth cream containing Recaldent (a milk derivative) and fluoride, aids in tooth remineralization and caries prevention, according to the company. MI Paste Plus is designed to provide extra protection against acid from bacteria in plaque and other internal and external acid sources. It may be used in the office or provided to the patient for at-home application.

For more information, contact GC America, 3737 W. 127th St., Alsip, IL 60803. (800) 323-7063; www.gc.dental.

Children's Aligners

Ormco recently introduced Spark Junior, designed specifically to meet the needs of patients under age 13, according to the company. Spark Junior enables two-phase treatment for customized, continuous orthodontic care. BiteSynch, Spark Aligners' mandibular advancement feature, can be added at any time during Spark Junior treatment. With no time restriction between phases, patients can seamlessly transition to Spark Advanced during their teen years.

For more information, contact Ormco, 200 S. Kraemer Blvd., Brea, CA 92821. (800) 854-1741; www.Ormco.com.

Buffering Solution

Septodont and Premier Dental recently announced the launch of BufferPro 8.4% sodium bicarbonate buffering solution. According to the companies, the product revolutionizes buffering with a one-step, single-use, fast and economical solution. Only one BufferPro capsule is used to buffer an anesthetic cartridge, helping to avoid cross contamination, while each capsule is individually packaged and sterilized, preserving shelf life so that it is ready to be used when needed.

For more information, contact Premier Dental, 1710 Romano Drive, Plymouth Meeting, PA 19462. (610) 239-6000; www.premierdentalco.com.

Relapse Aligners

NeoLab has introduced the Relapse Aligner Solution to provide flexible treatment for mild to moderate corrections. According to the company, 11 or 22 trays can be delivered for use in one or both arches, allowing for transparent, up-front pricing. Relapse Aligners are ideal for patients who need minor corrections and do not require full aligner treatment plans or who wish to fix relapse after previous orthodontic work.

For more information, contact NEOLab, 3 Riverside Drive, Andover, MA 01810. (800) 922-6365; www.neolab.com.
